

# Rosengrens Atlantic

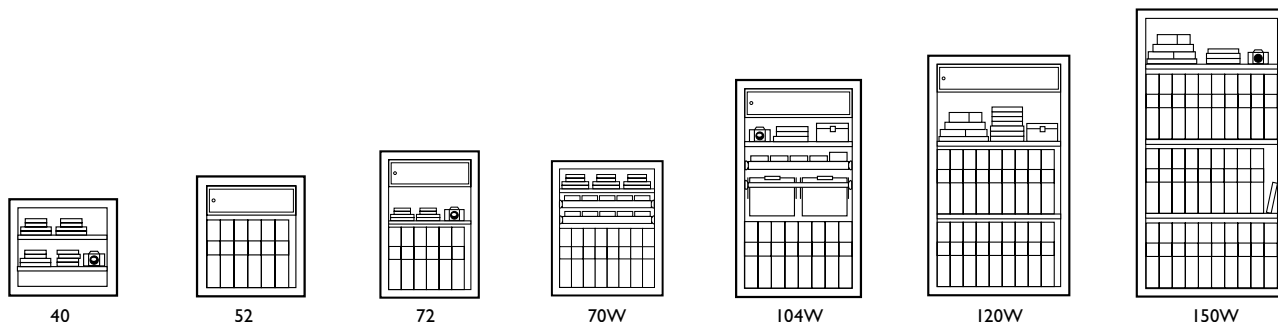

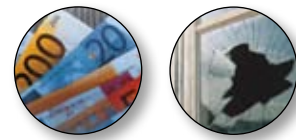

Burglary protection of valuables

Rosengrens Atlantic is a complete range of light weight cash safes with our new barrier material which makes the weight half of regular safes constructed with traditional technology. This low weight minimizes transport cost and simplifies the installation, even where floor loading could be a problem. The new material also results in thinner walls thereby providing the maximum usable volume. The safes are available in 7 sizes with a wide range of interior fittings and various deposit systems. As standard the safes are equipped with a resettable key lock. The Atlantic range is tested and certified to the European norm in Grade I-IV.

\*\* Only available reinforced, max 120 kg

**Burglary protection:** The Atlantic cash safes are tested according to the European norm EN 1143-1 and certified by ECB•S in Grades I-IV.

**Deposit systems:** The Atlantic cash safes can be supplied with various deposit systems. These systems can be both external and internal. The external deposit is integrated on top of the safe and the deposits are made into a lockable compartment in the safe. The internal deposit is by means of a slot in a lockable compartment.

**Locks:** The Atlantic range is delivered with a high-security, resettable key lock as standard. Alternatively, Rosengrens electronic lock, REL, can be fitted. Dual locking is also available as an option.

**Design:** Atlantic has a functional, ergonomic and modern design in off-white. All models are prepared for powerful anchoring to the floor.

**Quality and environmental management systems:** The Rosengrens Atlantic cash safes are all manufactured in accordance with the ISO 9001 quality management system and the ISO 14001 environmental management system.

**Quality control:** The Atlantic range has been developed and continuously tested according to the Rosengrens Quality Guidelines which include several criteria relating to existing European norms with the aim of guaranteeing quality and assuring customers that the products live up to the highest expectations.
